

August 28, 2012 Primary Runoff Election Voter Guide

Voter Guide for the Primary Runoff Election Tuesday, August 28, 2012, 7am to 7pm

Early in-person absentee voting will be available at the Tulsa County Election Board, 555 North Denver, on Friday, August 24 and Monday, August 27, from 8:00 a.m. to 6:00 p.m. and on Saturday, August 25, from 8:00 a.m. to 1:00 p.m.

This version of the League of Women Voters of Metropolitan Tulsa Voter Guide is made possible by the League of Women Voters of Tulsa Education Fund and the following generous donors:

Ruth Nelson, Frederic Dorwart Lawyers, Jill and Robert Thomas & William and Susan Thomas, Joe and Ellen Graham, the George Kaiser Family Foundation, George Krumme, the Williams Foundation, the Tulsa Jewish Retirement and Health Center, the Anne and Henry Zarrow Family Foundation, and the Maxine and Jack Zarrow Family Foundation.

August 28, 2012, Primary Runoff Election Voter Guide

Voter Information

Voter ID

Oklahoma's Voter ID law took effect July 1, 2011. All voters are now required to produce proof of identity before casting a ballot whether voting at a regular polling place or voting early at the County Election Board.

Acceptable identification includes documents issued by the federal, state (of Oklahoma) or a tribal government that includes the voter's name, photograph, and an expiration date that is after the date of the election in which the voter is attempting to vote. Voters also may use a voter identification card or a temporary voter identification document issued by the County Election Board.

The following ID will be accepted:

- A valid driver's license with an expiration date later than the day of the election.
- An identification card issued by the state of Oklahoma, which is not a driver's license, with an expiration date that is later than the day of the election; persons 65 or older are not required to have an expiration date on their state identification card.
- A tribal government ID, with a photo and expiration date later than the date of the election.
- A military/uniformed services ID, with a photo and expiration date later than the date of the election.
- A United States passport with an expiration date later than the date of the election.
- A voter registration card or a temporary voter registration document – the only forms of ID without a photo that will be accepted. A voter registration card does not have an expiration date. However, the temporary voter ID does have an expiration date and that date must be after the election.

Don't have ID? Ask for a provisional ballot!

It will take time to do the paperwork, but the Tulsa County Election Board says your vote will be counted if the name on the affidavit that accompanies the provisional ballot substantially conforms to the name on the voter rolls. Be sure the name you put on the affidavit matches the name you used to register to vote.

VOTE!

You can vote in person at your polling place for the precinct in which you live or vote early at the Tulsa County Election Board:

- The name of your polling place is on your voter identification card.
- The polls are open 7 a.m. - 7 p.m. on election day. If you are in line by 7 p.m., you will be able to vote.
- Early in-person absentee voting will be available at the Tulsa County Election Board, 555 North Denver, on Friday, August 24 and Monday, August 27, from 8:00 a.m. to 6:00 p.m. and on Saturday, August 25, from 8:00 a.m. to 1:00 p.m.

League of Women Voters of Metropolitan Tulsa August 28, 2012, Primary Runoff Election Voter Guide

Notes on this Voter Guide

Each candidate in the greater Tulsa area who will be on the ballot for primary runoff elections for U.S. Congressional District 2, Oklahoma Senate District 33, Oklahoma House District 70 and Tulsa County Clerk is listed in this voter guide. Prior to the June 26, 2012 primary election, each candidate who had filed for office was sent a questionnaire by the League of Women Voters and given an opportunity to respond. The League neither edits material submitted nor changes spelling, punctuation or grammar.

Candidates who won their primary election, candidates who drew no primary opponents from their respective parties and all candidates who registered as Independents will be on the Nov. 6 general election ballot. The League of Women Voters will publish a general election voter guide in October 2012, with responses from all candidates on the general election ballot who submit answers to the League's general election questionnaire.

Table of Contents

Elections are listed below. Candidates in those elections are listed by party in alphabetical order by last name.

League of Women Voters of Metropolitan Tulsa
August 28, 2012, Primary Runoff Election Voter Guide

Oklahoma Congressional District 2

Voters in the August 28 primary runoff election for Oklahoma Congressional District 2 will select a Republican and a Democrat who will be on the November general election ballot. Because no candidate in the primary election received majority of the votes for their party, the top two candidates from each party will be on the ballot for this runoff election. Because Oklahoma is a closed primary state, only Republican and Democratic voters will cast ballots in the Oklahoma Congressional District 2 primary runoff election. Questions

- 1. What educational and public service endeavors have prepared you to hold the office you are seeking? What is the most important factor that influenced you to seek public office, and why?**

The most important reason I seek this office is the very real concern that our children and grandchildren will not have the same opportunities to grow up and thrive with the liberty and freedom that my generation enjoyed--because of the astronomical growth of government and its intrusion into every aspect of daily life, and because of the staggering levels of wasteful spending and debt that this government is forcing future generations to bear.

I am currently in my 6th year serving as a State Representative working to limit the interference of government in our daily lives and fight back against the liberal mindset that bigger government is the answer to every problem. My family and I have operated a small business here for 25 years, so I am familiar with the frustrations of dealing with overreaching and intrusive government agencies and regulations. I believe that I can use this knowledge and legislative experience to work to restore lost freedoms and liberties to all Americans.

- 2. What is the role of the federal government with respect to issues such as energy, the environment, housing, education, and health care?**

The role of the federal government is to maintain and enforce a rational, fair and consistent system of laws under which private enterprise can effectively make decisions and compete in the open market to address all the needs of the American people, including those needs identified in this question. Where decisions are necessary to address an issue, those decisions are better made by individuals who are personally invested in making the right choice, i.e., private enterprise, rather than by a government bureaucrat who has no personal stake in whether the problem is solved.

The proper role of the government is not to pick marketplace winners and losers, unilaterally declare domestic energy sources "off-limits," nor to impose controls on our healthcare system.

I will work to eliminate or downsize federal bureaucracies that have overstepped their Constitutional grounds in these areas, like the Energy and Education Depts, OSHA, and EPA, and of course to repeal ObamaCare.

- 3. What are your ideas with respect to creating greater employment?**

Government does not create jobs--it only takes money from productive citizens by force of law and spends it on bureaucrats that themselves become a drag on productivity through excessive laws and regulations that by their very nature interfere with the free flow of commerce in the market.

Therefore if the country wishes a more vibrant economy that creates more employment, it must reduce the size and burden of government.

My proposals for a "sunset" process for executive branch agencies and to require legislative approval for rules made by those agencies would accomplish this. Similar to the sunset review process that I oversaw at the state level, non-essential and unconstitutional regulations and agencies could be systematically eliminated under a process that would require our elected representatives to periodically review and reauthorize these rules and agencies in order for them to remain in existence, and to ratify any new regulations sought to be imposed by federal agencies.

U.S. Congress, District 2, Oklahoma

George Faught (*continued*)

4. What are your ideas with respect to the future of Social Security, Medicare and the social safety net for the poor?

The federal government is destructive to every social program it takes over because any system where power is entrusted to unaccountable bureaucrats naturally seeks to expand its own power and scope--restricting individual liberty, taking more resources from productive citizens to feed its bureaucracy, and reducing resources available for its intended purpose.

Short-term, I support the Ryan Plan, designed to bring existing programs to fiscal balance. However, any real solution to the problems of the federalized social programs must include reducing or eliminating the federal government's involvement, and designing a new system where the effect of the program is not to encourage dependence on government systems, but rather to encourage and reward individual freedom and opportunity to earn a living in the free market, save for retirement, and invest those savings in a growing economy rather than the current system of government IOUs that create additional debt for future generations.

Questions

- 1. What is the single most important factor that influenced your decision to seek public office? Explain why this factor is so influential in your decision.**

Having served as a missionary in Eastern Europe, I quickly noticed the change America was going through when I returned home to Broken Arrow. Having experienced socialism and the effects of communism first hand, I knew that I had returned home to help get our nation moving back in the right direction by returning to the Constitution and the Biblical heritage our nation was founded upon. My desire is to serve the people of Oklahoma as I served as a missionary; not for personal gain, but for the benefit of others. I understand that the People are my boss, and I answer to them- whether Republican, Democrat, Independent, unregistered, or even too young to vote. Their voice matters and I represent them while upholding the Constitution.

- 2. What educational endeavors have prepared you to hold the office you are seeking?**

Having served as the dean of a Bible school and as the general manager of the 65-acre campus that was being developed overseas, I experienced first hand the detrimental effects of socialism on a people and a nation. As a non-profit organization, we relied solely on donations and therefore knew how to budget accordingly: if the money wasn't there we couldn't spend it. A lesson that most in government do not seem to realize and a fresh perspective that I will bring to the Oklahoma State Senate.

- 3. Do you believe that teachers in the state of Oklahoma are provided adequate tools to competently educate Oklahoma's students? Please explain your point of view.**

Teachers across the nation are being handed down unfunded mandates from the federal government which has no authority to be involved with education according to the U.S. Constitution. Local control is the best solution and we need to get the federal governments intrusions out of our classrooms so teachers can concentrate on teaching kids to learn rather than teaching them to pass standard tests that have been mandated outside of proper Constitutional authority.

- 4. Do you believe that every registered voter should be allowed to vote? Please explain your position, including what restrictions on the right to vote are appropriate.**

Every registered voter should be allowed to vote, however requiring identification to vote will help avoid voter fraud that has become apparent across our country and even in the state of Oklahoma. As I go through neighborhoods speaking to people and knocking on doors, I often come across a house where the resident listed has died years ago, yet they somehow miraculously continue to vote in every election.

Biographic Information

Occupation: Retired

Age: 61

Professional Experience: Stated my first business when I was 30. In six years grew it to \$3 million a year and sold it to a division of Dunn and Bradstreet to focus on my second business which grew to over \$40 million in revenue and 150 employees and named to Inc. Magazine's 500 fastest growing companies twice in the 1990's. Also won the New Business of the Year in Oklahoma in 1991 and Venture of the year in 1993.

Education: BS in Marketing from Oklahoma State University in 1973

Volunteer Service: Serve on the Board of Trustees for Immanuel Lutheran Christian Academy in Broken Arrow

Questions

- 1. What is the single most important factor that influenced your decision to seek public office? Explain why this factor is so influential in your decision.**

I had never considered public service, but on the night before filing I was contacted by a group of Republicans asking me to run for this office because they believe we need more business people serving in the legislature. I decided to run the next day when they told me that I could have an impact on the state of Oklahoma if elected. I decided if they truly believed this to be the case, then I had no choice but to run for this office. I believe I can bring my business skills to the legislature and help move Oklahoma forward.

- 2. What educational endeavors have prepared you to hold the office you are seeking?**

The fact that I took a risk to start two businesses from my idea about each, grew both into successful multi million dollar operations that others were willing to purchase, and what I learned in this process regarding taxes, workers comp, health benefits, regulations, etc. that affect businesses in Oklahoma.

Oklahoma Senate District 33

Tim Wright (continued)

3. **Do you believe that teachers in the state of Oklahoma are provided adequate tools to competently educate Oklahoma's students? Please explain your point of view.**

No. We've taken discipline away from the teachers to the point that they can no longer control their classroom. We no longer empower our teachers to teach to the level of the student, but to a test. We've eliminated competition in the education system and simply moving the problem to the teacher at the next level. We are not preparing our children for success in the business world by not expecting performance and making them aware that non-performance is unacceptable. There is too much administration in our education system which affects our teachers ability to teach in the classroom.

4. **Do you believe that every registered voter should be allowed to vote? Please explain your position, including what restrictions on the right to vote are appropriate.**

Yes, I believe every registered voter has a right to vote.

2. What educational endeavors have prepared you to hold the office you are seeking?

My Law degree and continued practice as an attorney. I have been trained in the law and, in my practice, must continue to review and study the law.

I have hands on experience with the justice system, department of Human Services, Juvenile Court. In addition, I understand how the laws affect the lives of People in a direct manner.

3. Do you believe that teachers in the state of Oklahoma are provided adequate tools to competently educate Oklahoma's students? Please explain your point of view.

They are provided adequate tools, but inadequate environments. Classrooms have far too many students. Oklahoma teachers are among the worst paid in the U.S. Funding of our schools is a priority to give the teachers a better environment and stop the drain of our best teachers to other states.

4. Do you believe that every registered voter should be allowed to vote? Please explain your position, including what restrictions on the right to vote are appropriate.

Every registered voter should be allowed to vote, provided they are a citizen and can provide identification at the voting location.

Questions

- 1. What is the single most important factor that influenced your decision to seek public office? Explain why this factor is so influential in your decision.**

Single biggest factor: the largess of government spending in the State of Oklahoma. As a businessman, taxpayer, and father, I'm frustrated with the growth and ineptitude of government in our state. We have no meaningful progress to show for the investment of our tax dollars.

Under Frank Keating, the State of Oklahoma collectively spent around \$9 billion. This year, we will spend nearly \$17 billion. And, while our expenditures have essentially doubled in ten years, we still have some of the worst roads, worst bridges, failing schools, and over-crowded prisons. By any measurable standard, that growth is unsustainable and the results unacceptable.

We have over 600 state agencies, boards, and commissions that aren't held accountable for the tax dollars that they spend. I believe that we need conservative, practical, business-minded citizens (like myself) to go to Oklahoma City and get back to basics. Government should be limited and should use our tax dollars responsibly.

- 2. What educational endeavors have prepared you to hold the office you are seeking?**

I am a Tulsa native who went to Jenks for elementary and middle school and Bishop Kelley for high school. I went to college at Washington and Lee University where I earned my undergraduate degrees in Politics and Classics. I earned my Master's in Business Administration from the University of Tulsa.

After college, I spent 3 years in Congressman Sullivan's Washington, DC office as a Legislative Assistant and Press Secretary. There, I learned first-hand how government (dis)functions and how the legislative process is influenced by external factors. I believe that, unless you understand how special interest groups and lobbyists work, you are powerless to stand against them. I joke that, while I have a Master's degree in business, my time in DC should qualify me for a Doctorate in government.

I started my company, Trident Energy, Inc., by risking my own capital. I know the difficulties that business owners and job creators face on a daily basis, because I've been there.

- 3. Do you believe that teachers in the state of Oklahoma are provided adequate tools to competently educate Oklahoma's students? Please explain your point of view.**

In short, no.

Our education system in Oklahoma is top-heavy with administrative costs. Too few of our tax dollars find their way to the classroom, where the actual learning takes place. We have 527 school districts in Oklahoma and 300 of those districts have fewer than 500 students each. Collectively, we pay our Superintendents \$51 million each year. If we cut that number in half, we would free up more than \$25 million which could go right into our classrooms without costing the taxpayer a penny more.

By reducing our administrative overhead, we could afford to pay our teachers more, attract the most qualified educators, keep our talented teachers in Oklahoma, and extend the respect and esteem that our educators deserve.

Oklahoma State House District 70

Shane Saunders (continued)

I have yet to meet a teacher who hasn't spent some of his or her own funds to help educate our children. While honorable, they shouldn't be placed in that situation.

Sadly, we have failed the rising generation. We must reform our education system.

- 4. Do you believe that every registered voter should be allowed to vote? Please explain your position, including what restrictions on the right to vote are appropriate.**

Legal Citizens of the United States of America who reside in Oklahoma, have reached the age of majority, and have registered to vote should be allowed to vote in our elections.

Biographic Information

Occupation: Tulsa County Chief Deputy Clerk

Age: 64

Professional Experience: I am currently Chief Deputy in the County Clerk's office. I currently oversee every department in the Clerk's office. The County Clerk is responsible for the recording and preservation of all property records in Tulsa County. The office manages payroll for the County, administers the county retirement system, processes payment for all county bills and produces the county's annual financial report. I have been chief deputy for the last eleven years and with the office for 13 years.

Prior to becoming a part of the Tulsa County Clerk's office, I was a business owner in McAlester, Oklahoma. I owned and operated a John Deere dealership as well as a cattle operation. I also was a high school teacher in a Christian school.

Education: I have a degree in Government from East Central University and I am a member of the Oklahoma County Officers and Deputies Association, the National Association of Clerks and Recorders and other professional associations appropriate to the Tulsa County Clerk's Office

Volunteer Service: I am active member of Victory Christian Center. I have served as both treasurer and president of the Tulsa County Republican Women's Club.

Questions

- 1. What is the single most important factor that influenced your decision to seek public office? Explain why this factor is so influential in your decision.**

Besides my faith, I would say that one of the most important factors that influenced my decision to seek the office of County Clerk is that I want to continue the professional leadership in the office that the public has come to expect.

I have first hand knowledge of all of the new technology that we have implemented and the plans to continue making the County Clerk's office the best in providing efficient and friendly customer service to the citizens of Tulsa County.

- 2. What educational endeavors have prepared you to hold the office you are seeking?**

Working in several areas of the County Clerk Office for 13 years, and being the Chief Deputy for 11 years, I believe I am ready to step up to the County Clerk position and make the transition very smooth for the people of Tulsa County as we continue to strive together for the betterment of Tulsa County Citizens.

- 3. What would you do to make the office of Tulsa County Clerk more efficient and more useful for the public?**

Right now we have been rated in the top 10 of all large counties in the nation for effective use of technology. We were also rated A+ by the Sunshine Review Project for Openness and Transparency. I would continue to strive the process we have began to simplify our infrastructure and sharing systems. I would continue to use advanced tools to help make records easily accessible to the public and continue to keep the cost at a minimal for business that utilize these records. Right now, we have a very well trained staff and have reduced the amount of employees in the County Clerks office over the past few years to cut down expenses without compromising the efficiency of the office.

Oklahoma State University, B.S. Stillwater, OK

Volunteer Service: Mainly church associated. Missions work, etc.

Questions

- 1. What is the single most important factor that influenced your decision to seek public office? Explain why this factor is so influential in your decision.**

I would have to say the single most important factor that influenced my decision to seek public office is my faith. In all major decisions in my life I go before God to seek His guidance.

Our country is in trouble...The federal government is \$16 trillion in debt, our state government has to borrow \$40 million last year to "balance" the budget. Which is mandated by the state constitution.

Our vigilance to bring the country back starts with the grass roots of our government...the local governments. It's time for good people to get involved or the freedoms we now have will be something we read about in a history book. I want to also give back to the community that I have been a part of for over 50 years.

- 2. What educational endeavors have prepared you to hold the office you are seeking?**

Working my way through college...sometimes working multiple jobs in the summer to pay for my schooling, taught me the value of hard work as well as an appreciation for the college experience. Throughout my work experiences I have learned that there are no "failures" just folks that quit too soon. There will always be challenges in life, and each challenge can lead to a victory if you just "hang in there, pray hard and work hard."

(continued on next page)

League of Women Voters of Metropolitan Tulsa
August 28, 2012, Primary Runoff Election Voter Guide

Tulsa County Clerk

Dean Martin (continued)

3. What would you do to make the office of Tulsa County Clerk more efficient and more useful for the public?

1. Be totally technology current. Technology is changing daily. If we are at the forefront of technology the clerk's office will be more efficient.
2. Integrate all areas of the county departments records by establishing a common coding system to access all county records.
3. Make all records easily accessible at no charge through internet access for all Tulsa County residents. A paid subscription for access to the records from out of county should remain a revenue stream of the clerk's office.
4. Have the best trained staff of any County Clerk's office anywhere.
5. Have total transparency with the citizens of Tulsa county regarding the budgeting process, and have an open door policy for any citizen.
